

I am sixth grade teacher at Lead-Deadwood Middle School. This is my seventh year teaching in the Lead-Deadwood School District. Previously, I have taught in the Meade School District and Rapid City Area Schools. I have now come full-circle since I grew up in the Lead area and attended Lead-Deadwood schools during my early education. I graduated in Lead High School in 2002. I then attended Black Hills State University and graduated in 2007 with degrees in Elementary Education and Special Education. In August 2012, I finished my master's degree in Curriculum and Instruction with a Mathematics Specialization.
